- Vite, Axios (API Integration)
- Git & GitHub, Appwrite (BaaS)
- State Management & Context API
- Form Validation, Responsive Web Design

Soft Skills

- Problem-solving and analytical thinking
- Communication and collaboration
- Time management and adaptability
- Eager to learn and improve
- Teamwork and attention to detail

Experience

PHP Intern

InnovateX Multipurpose Pvt.Ltd, Tyanglapath, Kirtipur-02, Kathmandu, Nepal

September 2021 – November 2021

- Worked on PHP backend development.
- Gained hands-on experience with PHP, MySQL, and backend services.
- Demonstrated strong problem-solving skills and a professional attitude in completing tasks.
- Acknowledged for being dedicated, sincere, and focused on delivering quality work.

Computer Teacher

Universal Learning Academy, Manahari-7, Makwanpur, Bagmati, Nepal

January 11, 2023 – April 12, 2024

- Taught computer subjects to students from classes 5 to 10.

- Prepared lesson plans and practical exercises to simplify complex IT concepts.
- Encouraged student engagement through interactive teaching methods.
- Recognized for being an enthusiastic and dedicated teacher with excellent rapport with students.

Frontend Developer Intern

Iconsoft Technology Pvt. Ltd.

February 2, 2025 – July 20, 2025

Technologies Learned & Used:

- HTML5, CSS3, JavaScript (ES6+), React, Vite, TypeScript, Redux Toolkit, React Router, Axios, Tailwind CSS, Git & GitHub.

Roles and Responsibilities:

- Developed a modern CMS (SmartLaw) frontend with a component-based architecture.
- Built multi-step tenant/user registration and onboarding flows with validation.
- Implemented secure login using JWT token storage and route protection.
- Designed dashboard UI with widgets like calendar, file lists, and activity tracking.
- Created UI for user and client management (list, search, filter, add/edit/delete).
- Developed reusable, responsive UI components (buttons, inputs, tables, dialogs).
- Managed global state using Redux Toolkit and React Context API.
- Followed best practices: centralized Axios instance with token interceptors, modular coding structure, and TypeScript type safety.

Education

- Bachelor in Computer Applications (BCA), Graduated 2022
